Balvatika is a pre-primary education focusing on early childhood education for children of age group 3 to 6 years.

Balvatika plays a crucial role in a child's foundational years and physical development. Our school provides a nurturing environment where children learn through play, exploration and creative activities. The teaching in our school is activity based and play based.

Students learn through drawing, coloring, clay modeling, puzzles and craftwork. We make learning fun by games, toys, storytelling and rhymes. Whereas in primary, middle and secondary classes also we teach by age appropriate teaching learning methodologies.

In NKOS we manage academics, sports and other activities delicately. We provide multiple opportunities to students to participate in sports, music, dance, Competitive exams, various Competitions, and activities at interschool, district, national and international level.
